

D-Day Social Story

        
On Tuesday May 28th, I will be taking part in a D-Day

   
workshop with my family.

       
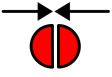

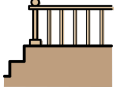

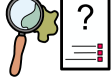

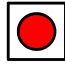

We will walk to a room in the museum and take

   
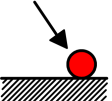

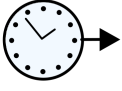

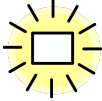

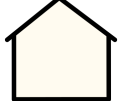

part in a creative activity.

      
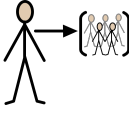

There will be a choice for the activity that I do.

      
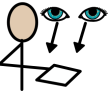

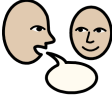

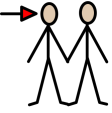

I can put together a glider plane and decorate it or I can

put

   +   
together a landing craft and then test it in the water tank.

      +
There will be some new things such as the building, room and

     
other people joining in with the activities.

    or    + 
If I feel worried, I can show or tell my family and they

     +  
can help me feel calm and enjoy the activity.

        
I can then take what I have made home with me to

 
play with.
